

LLWW Classification Scheme

Landscape Position	Landform	Water Flow Path	Water Body
Lentic	Fringe	Inflow	Pond
Lotic-River	Island	Outflow	Lake
Lotic-Stream	Basin	Through-flow	River
Terrene	Floodplain	Bi-directional	Stream
	Slope	Isolated	
	Flat		

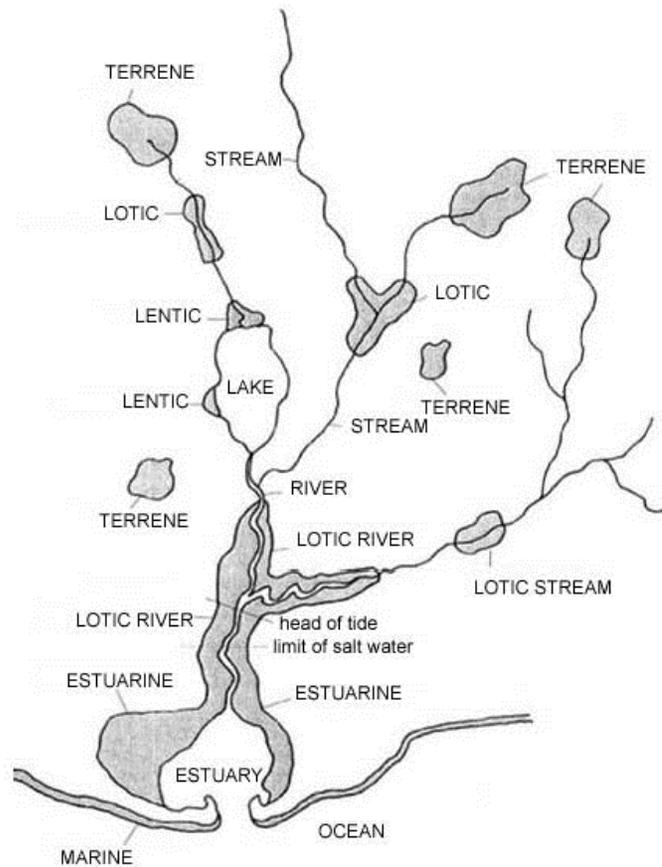

Figure 1. General landscape positions for wetlands, with a few waterbodies shown (ocean, estuary, lake, river, and stream)..

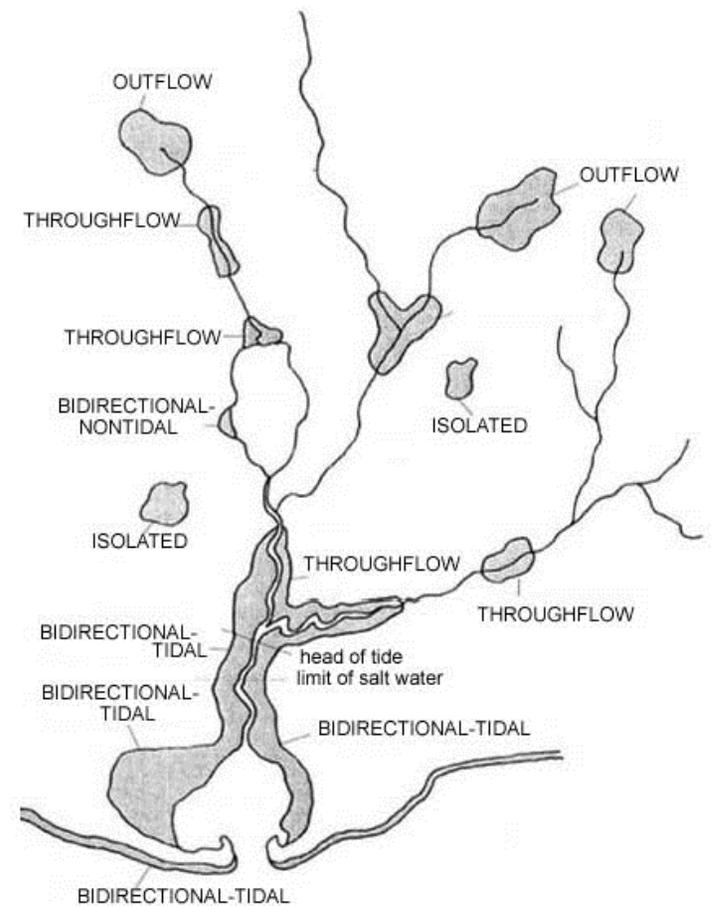

Figure 2. General depiction of common water flow paths across the landscape. Note: Flow for nontidal areas is from top of page downward.
