

X6060052 COMBINATION CONCRETE CURB AND GUTTER, TYPE B-6.24 (SPECIAL) (LCDOT)

Effective: January 1, 2007

Revised: May 19, 2014

Description: This work shall consist of constructing B-6.24 concrete curb and gutter with a variable depth gutter to facilitate drainage in areas where the proposed pavement grade is too flat to provide effective drainage using continuous depth gutter.

Materials: The materials shall meet the requirements of Article 606.02 of the “Standard Specifications”.

General: The work shall be performed according to Section 606 of the “Standard Specifications”, IDOT Standard Drawing 606001, the special detail(s) as shown on the plans and the following:

The curb and gutter shall be installed to the line and grade(s) shown on the plans.

Method of Measurement: Combination Concrete Curb and Gutter, Type B-6.24 (Special) will be measured for payment in feet. The measurement will be made along the face of curb according to Article 606.14 of the “Standard Specifications”.

Basis of Payment: This work will be paid for at the contract unit price per foot for COMBINATION CONCRETE CURB AND GUTTER, TYPE B-6.24 (SPECIAL). *The unit price shall include all equipment, materials and labor required to construct the curb and gutter.*
