

28000510 INLET FILTERS (LCDOT)

Effective: October 17, 2016

Revised: May 16, 2018

Description: This work shall consist of furnishing, constructing, removing, and disposing of inlet filters as part of the project's temporary erosion control system. **For use on LCDOT let projects only - do not include in IDOT let projects. Delete this note from the Contract Specifications.**

Description: This work shall consist of furnishing, constructing, maintaining, removing, and disposing of inlet filters as part of the project's temporary erosion control system. **For use on IDOT let projects w/Federal Funds only - do not include in LCDOT let projects. Delete this note from the Contract Specifications.**

Materials: Materials shall be according to Article 1081.15 of the "Standard Specifications", and the following:

Drop-in inlet protection devices shall include an overflow which prevents stormwater from flooding paved areas.

General: The work shall be performed according to Section 280 of the "Standard Specifications", and the following:

During the construction operation when any loose material is deposited in the flow line of ditches, gutters or drainage structures so the natural flow of water is obstructed, the material shall be removed at the close of each working day.

At the conclusion of the construction operations all drainage structures shall be free from all dirt and debris. This work will not be paid for separately but shall be considered included in the unit cost of INLET FILTERS.

Method of Measurement: This work will be measured for payment as individual items and the unit of measurement will be each regardless of the size or type of inlet being protected.

Basis of Payment: This work will be paid for at the contract unit price per each for INLET FILTERS. *The unit price shall include all work and materials necessary to properly install the inlet filter and to remove and dispose of the used materials at the completion of the project. Maintenance requirements other than the loose material discussed above shall be included and paid for under the special provision for MAINTENANCE OF TEMPORARY EROSION CONTROL SYSTEMS.* **For use on LCDOT let projects only - do not include in IDOT let projects. Delete this note from the Contract Specifications.**

Basis of Payment: This work will be paid for at the contract unit price per each for INLET FILTERS. *The unit price shall include all work and materials necessary to properly install the inlet protection, maintain the inlet protection throughout the project, and to remove and dispose of the used materials at the completion of the project.* For use on IDOT let projects w/Federal Funds only - do not include in LCDOT let projects. Delete this note from the Contract Specifications.
