

Toby Tire's

Recipe for School Bus Safety

As you grow and move forward in school, you will take on more responsibility. You may not even realize it, but you are becoming a role model for younger students. The younger kids watch how you behave and follow your lead.

When you were younger, you may have seen my Toby Tire School Bus Safety program at school, which works to keep small children safe while riding the school bus. Those rules are the same today as they were when you were in kindergarten. By following the rules of school bus safety, you will stay safe. As a bonus, you will help keep the younger kids safe, too, because they look to you for guidance.

The new Danger Zone program has added an online video game for you and your friends to play. The game allows you to test your school bus safety knowledge in a variety of real-life situations. Earn points for keeping yourself safe and by setting an example for younger students.

School bus accidents happen to people of all ages. So help keep yourself and the younger children safe by demonstrating good behavior on and around a school bus. When you do, you will find out how good it feels to be you!
