

## **K0026620    TRANSPLANTED SALVAGED SHRUBS (LCDOT)**

Effective: August 3, 2011

Revised: May 19, 2014

**Description:** This work shall consist of transplanting shrubs identified on the plans and/or identified by the Engineer in the field to new locations on the project site.

**General:** The work shall be performed according to Section 253 of the “Standard Specifications” and the following:

*The Engineer shall determine in the field the new locations of the shrubs. The work shall include watering, fertilizing and other operations necessary to reasonably ensure the health of the shrubs. The work shall be done to the Engineer's satisfaction.*

**Method of Measurement:** Transplanted Salvaged Shrubs will be measured in place, in the new location, as individual plants.

**Basis of Payment:** This work will be paid for at the contract unit price per each for TRANSPLANTED SALVAGED SHRUBS. *The unit price shall include all equipment, labor and materials required to successfully transplant the designated shrubs.*
