

LC300000 DRAINAGE LAYER 2' (LCDOT) For use on LCDOT let projects only - do not include in IDOT let projects. Delete this note from the Contract Specifications.

Effective: January 1, 2007

Revised: May 19, 2014

Description: This work shall consist of furnishing and constructing a layer of free draining sand over a designated pre-loading area as shown on the plans.

Materials: The drainage layer shall consist of clean, free draining natural coarse sand with less than 5% passing sieve #100 and 100% passing 1/2" sieve.

General: The sand shall be placed and spread evenly over the specified area to a depth of two feet.

Method of Measurement: Drainage Layer 2' will be measured for payment in place and the area computed in square yards.

Basis of Payment: This work will be paid for at the contract unit price per square yard for DRAINAGE LAYER 2'. *The unit price shall include all equipment, materials and labor required to furnish and construct the drainage layer.*
