

Z0019600 DUST CONTROL WATERING (LCDOT)

Effective: August 1, 2011

Revised: May 19, 2014

Description: This work shall consist of furnishing and applying water to control dust and air-borne dirt generated by construction activities.

General: This work shall be performed according to Article 107.36 of the “Standard Specifications” and the following:

Revise Article 107.36 of the “Standard Specifications” as follows:

Replace sub-paragraph (d) of under the third paragraph with the following:

(d) Dust shall be controlled by the uniform application of sprinkled water and shall be applied only when directed and in a manner approved by the Engineer. All equipment used for this work shall meet with the Engineer’s approval and shall be equipped with adequate measuring devices for determining the exact amount of water discharged. All water used shall be properly documented by ticket or other approved means.

The Contractor is reminded of the provisions of Article 107.18 of the “Standard Specifications” regarding the procurement of water from fire hydrants.

Method of Measurement: This work will be measured in units of gallons of water applied. One unit is equivalent to 1,000 gallons of water applied.

Basis of Payment: This work will be paid for at the contract unit price per unit for DUST CONTROL WATERING. *The unit price shall include all equipment, materials and labor required to control dust.*
