

ELEVATION

SECTION A-A

DESIGN NOTES:

Section A-A shall be the standard section for a B-6.12/B-6.24 Curb & Gutter. Gutter inverts & top of curb elevations are included on plan sheets at flat areas of pavement.

Achieving drainage through proper road profile and appropriate length of vertical curves is superior to using the method shown in this detail. Those methods should be exhausted before using this detail.

SCALE: 1" = 2'
