Working Together to Serve Lake County...

The Lake County IT department recently relocated staff members from their basement offices to the eighth floor of the County Building. Not all of their equipment would fit, so a large-format color plotter was moved from the basement to the Recorder's Office on the sixth floor to allow for more convenient access.

Keith Caldwell, GIS Manager - "Thank you for allowing us to move the plotter to your floor! This will make it much more efficient to use and allow others easier access. I continue to appreciate the level of interdepartmental cooperation within the County, especially the support from your office!"
