At the Lake County Sheriff's Office, we understand crisis may occur at any time and in many ways. This brochure is designed to link you to service providers for the most basic of needs including shelter, food and medical care.

Local township organizations are equipped to provide many of the essential services needed following a crisis or a disaster. Township phone numbers and Supervisor names are listed within the brochure.

About Find Help Lake County

Lake County offers high-quality community resources for a broad spectrum of concerns, from teen pregnancy to uninsured families to substance abuse and those living with domestic violence. However, people who need these resources often do not know they even exist or how to find them. United Way of Lake County, with the support of local funding partners sought to change this.

Creating FindHelpLakeCounty.org allowed agencies looking to provide help with those desperately searching for help. You can visit their website at www.findhelplakecounty.org/
