Mr. Steven S. Sandvoss
Executive Director
State Board of Elections
2329 S. MacArthur Blvd.
Springfield, IL 62704-4503

Dear Mr. Sandvoss,

In compliance with 10 ILCS 5/1-17 of the Illinois Election Code, this letter contains information regarding the age and functionality of the voting equipment used in Lake County for the November 2020 General Election, as indicated in the attached spreadsheet.

The Lake County elections are programmed on ES&S Voting System 5.5.0.2, which was installed on July 8th, 2020. We have 274 in-precinct scan machines, model DS200, which are from 5 to 7 years old and in good working order. We have 2 central count scan machines, a model DS850, which is 5 years old, and a model DS450, which is 4 months old. Both central count scan machines are in good working order. We have 237 ADA Ballot Marking Device Component machines, model ExpressVote, which are from 7 months to 1 year old and in good working order.

We have no plans to change any election equipment or systems before the next election, and we do not anticipate purchasing any new election equipment at this time.

The attached spreadsheet contains details about our voting equipment.

Please call me at (847)377-2429 if you have any questions or concerns.

Sincerely,

Juan G. Lopez, Jr.
Technical Director
Lake County Clerk's Office

Jurisdiction	Lake County			
		# Pieces	Age	Functionality
In-Precinct Equipment	DS200 - Firmware Ver. 2.17.0.2	34	7 Years	In good working order
