

PUBLIC WORKS PERMIT CARD COMMENTS:

PWDIS

CONDITIONS

GENERAL

1. All water and sewer services shall be disconnected at the main, unless otherwise approved by the Engineering Supervisor. Additional permit may be required from the ROW authority.
2. Existing service pipes may be reused if a connection permit has been issued and if the pipe is in suitable condition for reuse. Sewer service pipes must be televised in the presence of a LCPW inspector.
3. Inspections must occur prior to backfill of the disconnection point. Contact LCPW at 847-377-7500 to schedule inspections 48 hours in advance.
4. See Lake County Public Works' website for standard details.

WATER SERVICES

1. Only LCPW personnel are authorized to operate mainline valves.
2. Water services shall be capped by installing a blank at the corporation and proper bedding.
