

Available Mitigation Banks

Under the 1997 ICA

as of December 2014

Watershed Service Areas

- Des Plaines River
- Fox River
- Illinois River
- Kishwaukee River
- Lake Michigan
- Mitigation Banks
- Major Rivers

It should be noted that each watershed depicted represents the Federal bank service areas within the regulatory boundaries of the Chicago District. There are some counties that require compensatory mitigation be completed within their jurisdictional borders. We recommend that you check your local regulations regarding mitigation requirements as part of your planning efforts.
