

Z0018200 DRAINAGE STRUCTURE RECONSTRUCTION (SPECIAL)
(LCDOT)

Effective: April 23, 2020

Description: This work shall consist of reconstructing drainage structures.

General: The work shall be performed according to Section 602 of the “Standard Specifications” including the LCDOT special provision for Section 602 included herein and the following:

Article 602.03 of the “Standard Specifications” defines adjustment as a depth of work not exceeding two feet. Work exceeding the two foot limit is defined as reconstruction. In the absence of specific drainage structures scheduled for reconstruction this pay item is provided as a contingency quantity to establish a unit price. It will be used for drainage structures scheduled for adjustment where the depth of work exceeds two feet.

Method of Measurement: This work will be measured per each drainage structure either scheduled for reconstruction or converted from adjustment to reconstruction.

Basis of Payment: This work will be paid for at the contract unit price per each for DRAINAGE STRUCTURE RECONSTRUCTION (SPECIAL). *The unit price shall include all equipment, labor and materials required to reconstruct the drainage structure.*
