

# Hire Lake County

## Company bio:

SAI is an independently owned laboratory provider. We have more than 20 years' experience in helping our clients perform safe and effective infusion and sampling. Our headquarters and manufacturing facility are located in the USA, but we sell many of our products throughout the world. We build our products to strict quality standards, but focus on getting orders filled quickly so that our clients can get their work done on time. All of our products are made for animal research purposes only, but they incorporate the highest quality medical devices and components, approved for use in humans.
