

Background & Contact Information of Presenters

February 15, 2022

Mea Blauer – Mea is the Sr. Civil Engineer for SMC. Her duties include performing site inspections for compliance with the Lake County Watershed Development Ordinance and organizing the DECI workshop. Mea has previously worked for Lake County Planning, Building and Development Department for 8 years and Lake County Soil and Water Conservation District for 8 years. She is a Certified Professional in Erosion and Sediment Control and a Certified Floodplain Manager. She received her B.S. in Geography from the University of Iowa and Master's in Environmental Management from Northeastern Illinois University.

Nancy Schumm – Nancy Schumm spent 30 years in Illinois working on environmental projects including stream restorations, grant funded projects and stormwater planning. While in Illinois Schumm was a DECI inspector from the beginning of the program. After moving to Maryland, she has learned a great deal about the way erosion control is treated in different areas of the county, from an enforcement and implementation standpoint to the effectiveness of treatments based upon soil conditions and land contours.

STORMWATER MANAGEMENT COMMISSION

Pat Wendricks – Pat is the Director of Construction Management for Manhard Consulting and has over 37 years of experience in Construction Management. Pat’s responsibilities include supervision of mass grading, sanitary and storm sewer installation, water main and roadway installation. Pavement evaluation and rehabilitation and restoration projects including M.F.T. projects. Pat specializes in both construction management (directing, overseeing, and scheduling contractors) and providing construction observation and resident engineer services (owner’s field representative). He is responsible for inspection of sanitary sewer, storm sewer, water main and roadway construction pavement installation and rehabilitation including N.P.D.E.S. and DECI compliance inspection, monitoring and reporting. He is also responsible for contractor pay estimates and performance documentation. Pat has also completed NASSCO training for inspection of Cured-in-place pipe (CIPP) lining. He is highly respected by both public and private sector clients to manage challenging and time sensitive projects.

STORMWATER MANAGEMENT COMMISSION

Sushil Tuladhar -- Mr. Sushil Tuladhar serves as a Project Scientist with Weaver Consultants Group (WCG), Environmental Practice Group (EPG) and has been with the group since 2019. He is responsible for conducting erosion and sediment control inspections for utility line installations, residential subdivisions, and commercial projects, preparing regulatory reporting for the National Discharge Elimination System (NPDES) ILR10 permit for various clients. His additional duties include site screening of wetlands, waterbodies, and drainage features, assists with wetland delineations, documentation of observations, analysis of results through information memorandums and formal reports, stormwater and wetland permitting with municipalities, counties, state, and federal entities. Mr. Tuladhar became a DECI certified inspector in June 2019.

Prior to joining to WCG, Mr. Tuladhar worked as a Stormwater Specialist for the City of Cedar Falls in Cedar Falls, Iowa in administering the City's stormwater management program, ensuring compliance with plans and permit requirements through a technical review of stormwater pollution prevention plans, permitting, monitoring, inspection, enforcement, and data management activities.
