

Position: Conservation Intern at Fremont Township

General Job Summary

Fremont Township maintains numerous native areas, including their campus property, parks, and areas under the highway department's jurisdiction. Types include wet prairie, mesic prairie, rain garden, detention areas, streambanks, bioswales and landscaping beds. We are looking for a highly motivated individual to continue maintenance of these areas, as well as enhance existing landscaping.

Duties include but is not limited to:

- Weeding - manual, line trimming, and herbiciding
- Planting
- Design with natives
- Recordkeeping

Qualifications

Herbicide Operators license obtained prior to May 1, 2022. Must be willing to work in adverse weather conditions if necessary and manually lift 50 lbs. Must have transportation to and from Fremont Township. Mileage to offsite locations will be reimbursed.

Hours

Flexible - Timing and amount of hours can vary. Workload demand varies depending on season. Additional roadside maintenance work available if desired, including flagging, tree removal, erosion control. Average weekly hours ~15. April 15-Oct 15th (season length is flexible).

Compensation

\$15-20, commensurate with experience
