

78009012 MODIFIED URETHANE PAVEMENT MARKING – 12 INCH (LCDOT)

Use this pay item on LCDOT projects with concrete medians that require the curb and gutter and/or median noses to be painted. Delete this note from the Contract Specifications.

Effective: May 12, 2022

Description: This work shall consist of applying a 12” Modified Urethane Pavement Marking to the face and top of curb of designated sections of curb and gutter abutting a raised median. The work shall also include applying a 12” Modified Urethane Pavement Marking to the top of a sloped median nose. The 12” Modified Urethane Pavement Marking shall be applied to the locations shown on the plans and/or as designated by the Engineer.

Materials: The materials shall meet the requirements of Article 1095.09 of the “Standard Specifications”.

General: The work shall be performed according to Section 780 of the “Standard Specifications”.

Method of Measurement: The work will be measured for payment according to Article 780.14 of the “Standard Specifications” and as follows:

- The length of the 12” line for the curb and gutter will be measured at the outside edge of the marking (bottom of the face of curb).
- The area of the median nose will be calculated in square feet. The area will be converted to an equivalent quantity of 12” linear marking.

Basis of Payment: This work will be paid for at the contract unit price per foot for MODIFIED URETHANE PAVEMENT MARKING – 12 INCH. *The unit price shall include all equipment, materials and labor required to furnish and install the pavement marking on the concrete median.*
