

LCDOT PAVEMENT MARKINGS

Short Term Pavement Markings			
Pay Code	Description	Unit	Notes
70300100	Short Term Pavement Marking	Foot	<p>Used for short term markings on all HMA lifts (base, binder & leveling binder) and tack coats, except for the surface course. All short term markings use 4" lines - see the standard.</p> <p>Include the LCDOT Section 703 special provision (included in the Header file)</p> <p>Include LCDOT Standard Detail LC7802</p> <p>Calculated at 10% of the center line (x2 for double dashes / x4 for double dashes for medians) and skip-dash lane markings + 100% of the length of solid lane lines and the quantities for letters and symbols (LC7802). Multiply by the number of applications (lifts & tack coats).</p>
70307120	Temporary Pavement Marking - Line 4" - Type IV Tape	Foot	<p>Used for short term markings on the surface course. All short term markings use 4" lines - see the standard.</p> <p>Include the LCDOT Section 703 special provision (included in the Header file)</p> <p>Include LCDOT Standard Detail LC7802</p> <p>Calculated as one application of short term markings.</p>
XX009142	Pavement Marking Removal (Special)	Sq Ft	<p>Used for the removal of the Type IV Tape used as the short term markings on the surface course.</p> <p>Include the LCDOT Pavement Marking Removal (Special) special provision</p> <p>Calculated as one application of short term markings divided by 3 to equal square feet.</p>

LCDOT PAVEMENT MARKINGS

Temporary Pavement Markings			
Pay Code	Description	Unit	Notes
70300211	Temporary Pavement Marking Letters and Symbols - Paint	Sq Ft	Paint – for use with resurfacings & staged construction where it is beneficial to install a solid centerline if short term tape exceeds 14 days (or a holiday weekend) – usually a contingency item as sometimes our County paint truck gets it instead.
703002XX	Temporary Pavement Marking - Line X" - Paint	Foot	Calculated as one complete application (all lines, skip dashes, L&S etc..) of the final pavement markings.
70303100	Temporary Pavement Marking Letters and Symbols - Modified Urethane	Sq Ft	Modified Urethane – for use where temp markings need to last over a winter period on staged construction.
703031XX	Temporary Pavement Marking - Line X" - Modified Urethane	Foot	Calculated as one complete application (all lines, skip dashes, L&S etc..) of the final pavement markings.
70307100	Temporary Pavement Marking Letters and Symbols - Type IV Tape	Sq Ft	Occasionally there might be a use for Ty IV tape solid lines if staging is over an area that will not be resurfaced (as long as it doesn't have to last over the winter).
703071XX	Temporary Pavement Marking - Line X" - Type IV Tape	Foot	Note if used for temporary pavement markings then the quantity for the temporary 4" line will need to be added to the quantity for the short term marking on the surface course.
LC780000	Temporary Thermoplastic Pavement Markings - Letters and Symbols	Sq Ft	Use when choosing to apply thermoplastic pavement markings for temporary traffic staging. Note - thermoplastic pavement markings are not generally used for temporary traffic staging.
LC7800XX	Temporary Thermoplastic Pavement Markings - Line X"	Foot	Include the LCDOT Temporary Thermoplastic Pavement Markings special provision
78300201	Pavement Marking Removal - Grinding	Sq Ft	For removal we can use Pavement Marking Removal – Grinding for about 95% of the cases. Occasionally the Design Engineer may have to select Pavement Marking Removal – Water Blasting if trying to preserve the surface say if changing a stop bar location or other pavement markings where not resurfacing. Water Blasting is still destructive to the surface, but less so than Grinding.
78300202	Pavement Marking Removal - Water Blasting	Sq Ft	Calculate by quantity by converting the various markings length and width into square feet.

LCDOT PAVEMENT MARKINGS

Permanent Pavement Markings			
Pay Code	Description	Unit	Notes
78000100	Thermoplastic Pavement Marking - Letters and Symbols	Sq Ft	Used on most of LCDOT HMA Pavements including resurfacings and new pavements. Include the LCDOT Section 780 special provision (included in the Header file). Include LCDOT Standard Detail LC7800 on all projects.
78000XXX	Thermoplastic Pavement Marking - Line X"	Foot	Include LCDOT Standard Detail LC7801 for on street bicycle pavement markings; LC803 for railroad crossing pavement markings; & LC7804 for roundabout pavement markings if applicable.
780110XX	Grooving for Recessed Pavement Marking, Letters and Symbols	Sq Ft	Used on most of LCDOT HMA Pavements including resurfacings and new pavements. Include the LCDOT Grooving for Recessed Pavement Markings special provision.
780110XX	Grooving for Recessed Pavement Marking X"	Foot	For thermoplastic (HMA pavements) markings the groove is 1" larger than the line e.g. a 5" groove is used for the 4" line. For the preformed plastic and preformed thermoplastic markings the groove for yellow lines (no contrast) the groove is 1" larger than the marking. For the preformed markings with contrast the groove is 4" larger than the line e.g. an 10" groove is used for the 6" line.
78001100	Paint Pavement Marking - Letters and Symbols	SqFt	Used for spot locations on LCDOT roads - often a contingency item with the work done by the LCDOT Paint Truck.
780011XX	Paint Pavement Marking - Line X"	Foot	
78004600	Preformed Plastic Pavement Marking, Type D - Letters and Symbols	Sq Ft	Note the Letters and Symbols pay item is not typically used on LCDOT roads. The 4", 6" & 8" lines are used on most of LCDOT grooved concrete surfaces. For white markings include the contrast border. Yellow markings do not include the contrast border. Include the LCDOT Preformed Thermoplastic & Plastic Pavement Markings special provision.
780046XX	Preformed Plastic Pavement Marking, Type D - Line X"	Foot	Include LCDOT Standard Detail LC7800 on all projects. Include LCDOT Standard Detail LC7801 for on street bicycle pavement markings; LC803 for railroad crossing pavement markings; & LC7804 for roundabout pavement markings if applicable.

LCDOT PAVEMENT MARKINGS

Permanent Pavement Markings (continued)			
Pay Code	Description	Unit	Notes
78006100	Preformed Thermoplastic Pavement Marking - Letters and Symbols	Sq Ft	The letters and symbols along with the 12" and 24" lines are used on most of LCDOT grooved concrete surfaces. For white markings include the contrast border. Yellow markings do not include the contrast border. Include the LCDOT Preformed Thermoplastic & Plastic Pavement Markings special provision.
78006150	Preformed Thermoplastic Pavement Marking - Line XX"	Foot	Include LCDOT Standard Detail LC7800 on all projects. Include LCDOT Standard Detail LC7801 for on street bicycle pavement markings; LC803 for railroad crossing pavement markings; & LC7804 for roundabout pavement markings if applicable.
78009000	Modified Urethane Pavement Marking - Letters and Symbols	Sq Ft	Used on most of LCDOT non-grooved concrete surfaces. For white markings include the contrast border. Yellow markings do not include the contrast border. Include LCDOT Standard Detail LC7800 on all projects.
78009004	Modified Urethane Pavement Marking - Line X"	Foot	Include LCDOT Standard Detail LC7801 for on street bicycle pavement markings; LC803 for railroad crossing pavement markings; & LC7804 for roundabout pavement markings if applicable.
Pavement Markings - Special Use			
Pay Code	Description	Unit	Notes
78004630	Preformed Plastic Pavement Marking, Type D - Line 6"	Foot	Use the 6" line for the skip dash markings on multi-lane HMA roads. Include the LCDOT Preformed Thermoplastic & Plastic Pavement Markings special provision.
X7800815	Hot Spray Thermoplastic Pavement Marking Line - 4 Inch	Foot	Used for center line markings in conjunction with center line rumble strips. Include the LCDOT Hot Spray Thermoplastic Pavement Marking - 45 Mil Special Provision.
78009012	Modified Urethane Pavement Marking - Line 12"	Foot	Used to paint Median Curbs. Include the LCDOT Modified Urethane Pavement Marking - 12 Inch special provision.
