

**WATER SYSTEM IMPROVEMENTS BEGINNING:
HIGHLAND LAKE WATER SYSTEM—PHASE 1**

Lake County Public Works (LCPW) will be interconnecting the Highland Lake water system serving residents west of the lake with a private system serving some residents near Lakeside Drive and Eldor Avenue. A water main installed on the north side of Washington Street will connect the two systems. Construction is expected to start in late July and is anticipated to be finished this fall. Some residents may have water service disrupted for a short period during construction. Affected customers will receive ample notice prior to water shutoffs.

Residents may observe construction activities, truck traffic, and periodic lane closures on Lakeside Drive. No traffic lane closures are anticipated on Washington Street, but bike path and sidewalks could be temporarily closed on Washington Street between Hainesville Road and Lakeside Drive. LCPW will use trenchless technology to minimize disturbances.

For more information on Phase 1 of this project, visit our website at: lakecountylvil.gov/Highland
