

Does your organization serve immigrants?

Many immigrants must be screened for tuberculosis (TB) within 90 days of entry into the United States.

Immigrant and refugee populations are at an increased risk for TB. The Lake County Health Department operates a TB Clinic that provides education, screening, testing, and treatment. The TB Clinic can also provide COVID-19 and flu vaccinations.

TB Prevention and Care

¿Su organización sirve a inmigrantes?

Muchos inmigrantes deben hacerse pruebas de detección de tuberculosis (TB) dentro de los 90 días posteriores a la entrada a los Estados Unidos.

Las poblaciones de inmigrantes y refugiados tienen un mayor riesgo de contraer tuberculosis. El Departamento de Salud del Condado de Lake opera una Clínica de Tuberculosis que brinda educación, detección y tratamiento. La Clínica de Tuberculosis también provee vacunas contra el COVID-19 y la influenza.
