Drainage Study

Local Drainage Study Completed

On August 23, 2007 an intense rainfall occurred on saturated ground conditions in Buffalo Gro large amount of storm water runoff. In response to a request from residents who attended the September 10, 2007, the Village Board authorized staff to initiate an evaluation of drainage in a consulting engineer who specializes in these types of evaluations. Residents who suffered a August 23, 2007 storm or as a result of the very intense storm which occurred on October 2, 2 contact the office of the Director of Public Works at 847-459-2547 to obtain a questionnaire w of information which would be needed to incorporate their properties into the evaluation of issi at the Village Board meeting.

At the Village Board meeting scheduled for 7:30 PM on Monday October 6, 2008 at the Buffak Raupp Blvd.) the consulting engineer will present the results of study.
