

**STATE OF ILLINOIS
LAKE COUNTY DIVISION OF TRANSPORTATION
WINCHESTER ROAD
LIBERTYVILLE, ILLINOIS**

Notice is hereby given that Statements of Interest (SOI) are requested together with Statements of Qualifications (SOQ) for furnishing professional civil engineering services on the following projects. SOI/SOQ shall be submitted via email to LCDOTBidInfo@lakecountyil.gov following "SOI/SOQ Submittal Instructions" on our website:

www.lakecountyil.gov/Transportation/Business/Pages/ConsultantSelection.aspx

Submission deadline is 10:00 A.M. on Friday, October 16, 2015.

1. **Section No. 14-00095-17-CH:** Preparation of Phase I preliminary engineering, and an option to perform Phase II design engineering, in accordance with the Illinois Department of Transportation's Bureau of Local Roads & Streets Policies & Procedures, for an intersection improvement at Hunt Club Road and IL Route 132 in Gurnee, Illinois. Phase I work will include an intersection design study; alternatives analysis, field surveys; preliminary plans with proposed horizontal and vertical alignments; hydrology/hydraulic analysis; identification of detention requirements; coordination meetings with utility companies; coordination with LCSMC, permitting agencies and local communities; a soils report; a determination of proposed right-of-way and/or easements and the preparation of plats and legal descriptions; public involvement; and an environmental assessment (PESA and PSI). Although the project will initially be funded by local funds, the work shall be developed as being eligible for possible federal funding.

2. **Section No. 15-00120-06-CH:** Preparation of Phase I preliminary engineering, and an option to perform Phase II design engineering, in accordance with the Illinois Department of Transportation's Bureau of Local Roads & Streets Policies & Procedures, for an intersection improvement at Fairfield Road and Monaville Road in Unincorporated Lake County and Lake Villa, Illinois. This project will include studying both a roundabout intersection and a conventional signalized intersection for this location. Phase I work will include an intersection design study; alternatives analysis, field surveys; preliminary plans with proposed horizontal and vertical alignments; hydrology/hydraulic analysis; identification of detention requirements; coordination meetings with utility companies; coordination with LCSMC, permitting agencies and local communities; a soils report; a determination of proposed right-of-way and/or easements and the preparation of plats and legal descriptions; public involvement; and an environmental assessment (PESA and PSI). Although the project will initially be funded by local funds, the work shall be developed as being eligible for possible federal funding.

Respondents shall include in their SOI a prioritized listing of the above design projects (1 or 2) which are best suited to the capabilities and qualifications of their firm. The SOI shall be accompanied by a brief description of why the particular project(s) were chosen. A current IDOT prequalification listing shall also be included with the submittal. Statement of Qualifications should be concise and directly relate to the project(s) of interest.

The County, in accordance with the laws of the State of Illinois, hereby notifies all firms expressing statements of interest that it will affirmatively insure that the contract entered into pursuant to this advertisement will be awarded without discrimination on the grounds of race, color or national origin.

By order of the Lake County Engineer

Paula J. Trigg, P.E.
Director of Transportation/County Engineer
